PROFILE

I am a self-motivated, hard-working and positive individual eager to explore a career in the IT sector to expand my knowledge as a self-taught developer. I present awesome ability to work and learn so as to improve my knowledge and experience. I constantly seek out opportunities to go beyond basic and positively impact my team. I possess keen organizational skills which allows for effective delivery of outstanding service. I am an individual who relishes working in a challenging environment where I can put into practice my knowledge and experience ultimately benefiting the operations of the institution that I work for.
